

Platform on Disaster Displacement (PDD) Strategy 2019-2022
Annex II: Logical Framework on Outcomes and Outputs

| | | | | |
|------------------------------|---|--|---|--|
| Ultimate outcome | States and other Stakeholders are supported to strengthen the protection of people displaced across borders in the context of disasters and the adverse effects of climate change, and the risks of disaster displacement in countries of origin are prevented or reduced | | | |
| Intermediate outcomes | I. Policy coherence on disaster displacement and integrated implementation of global policy frameworks on human mobility, climate change action and disaster risk reduction are enhanced. | II. Policy and normative gaps in the protection of persons at risk of displacement or displaced across borders are addressed. | III. Institutional capacity and public policies at the national and regional levels to implement effective practices and instruments to prevent, reduce and address disaster displacement are strengthened. | IV. Evidence and data on disaster displacement and its impacts are strengthened. |
| (Expected) Outputs | <p>I.1 Policy dialogue and evidence-based advocacy on disaster displacement presented and channeled to policy- and decision-makers</p> <p>I.2 Technical and policy input provided to support the implementation of the Compacts for Migration (GCM) and on Refugees (GCR)</p> <p>I.3 The protection challenges of disaster displacement introduced and presented in global and regional policy dialogues on human mobility</p> <p>I.4 Technical and policy input on disaster displacement provided to the UNFCCC and subsidiary bodies</p> <p>I.5 Technical and policy input provided to support implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030</p> | <p>II.1 Development of new and relevant policies and norms, including soft laws and human mobility frameworks and protocols at the regional level</p> <p>II.2 Global policy and soft law development regarding disaster displacement promoted</p> <p>II.3 Guidance and guidelines on the application of existing international standards and norms regarding disaster displacement developed</p> | <p>III.1 Standard Operating Procedures and Guidelines for Admission and Stay developed/ adopted/ implemented at regional levels</p> <p>III.2 Technical and operational support provided to include human mobility challenges in national and regional adaptation planning processes</p> <p>III.3 Technical and operational support provided to include human mobility challenges in national and regional disaster risk reduction strategies and plans</p> <p>III.4 Implementation of regional and integrated projects and plans of action facilitated and supported</p> <p>III.5. Technical support, training and capacity-building on the challenges of human mobility in the context of disasters and climate change supported</p> | <p>IV.1 Research, scientific dialogue and information sharing on data and knowledge regarding disaster displacement supported</p> <p>IV.2 Data collection and information systems at the global, regional and national level collecting, monitoring and analyzing data on disaster displacement supported</p> <p>IV.3 Evidence and research strengthened regarding disaster displacement dynamics, particularly in the context of slow-onset events and processes</p> <p>IV.4 Policy, normative and knowledge gaps addressed through research and analysis</p> |
| Communication Output | Advocacy on disaster displacement supported through effective communication | | | |

End/.
